[#WEBINAR](#) [#INVITATION](#): What is mostly being covered on [#COVID19](#) is the clinical aspect and little is being done on the social impact of the pandemic particularly when it comes to children.

- How are parents responding to the pandemic and why should we be concerned?
- What are peoples' fears and its implication of them bringing their children to

hospitals?

□What are the social impacts of COVID 19 at a family level ?

□What technologies are being produced in Kenya to support children with COVID 19

Join us as we discuss these concerns with

- Dr. Thomas Ngwiri, Head Clinician at Gertrude Children's Hospital
<https://www.gerties.org/>
- Ms [Verah Vashti Okeyo](#) , Global Health reporter from Nation Media Group and
- Eng Peter Akuon PhD, from University of Nairobi, who is producing portable ventilators, which, will be used in supporting #COVID_19 patients; read more at uonbi.ac.ke/news/uon-ventilators-model-ready-production.
